## SOME COMPANIES MAKE HOLLOW PROMISES - **WE KEEP THEM!**

An innovative new pallet design that incorporates advanced safety features and new sustainable material options.

Call Pallenz on 0800 472 553 to find out how we're making plastic pallets better for your environment.

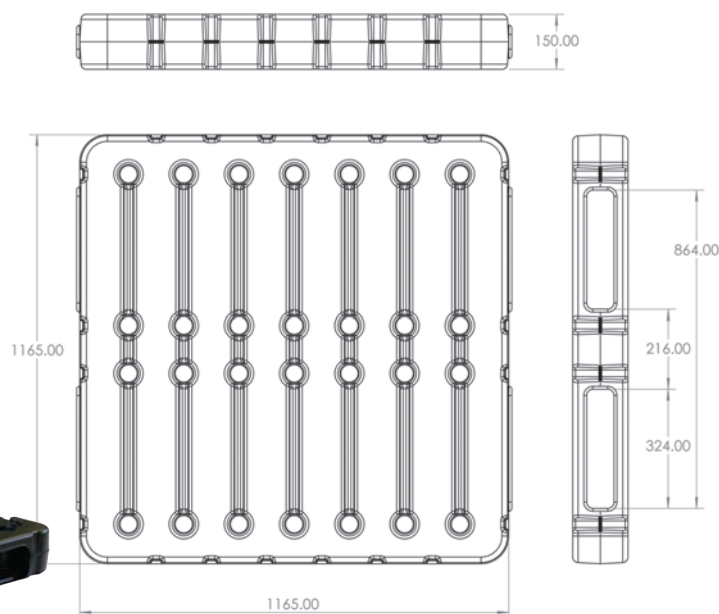

With over 20 years extensive experience in the plastic pallet industry Pallenz Plastics Ltd has invested significantly in state-of-the-art manufacturing processes and product design to bring you the new range of Pallenz plastic pallets.

A single piece hollow design provides strength, durability, ease of cleaning, and safety together with a new variety of material and operational weight options.

Select from 100% virgin raw material or for non-direct contact why not consider our new recycled material options?

- **Built-in racking safety feature**
- **Better shipping container utilisation**
- **Australian standard size**
- **One piece design**
- **Value for money**
- **Material options**
- **No water pooling**
- **Easy clean design**
- **Recyclable**
- **New Zealand designed and made**
